Create powerful alerts and back-test strategies with the TradeScript™ language.

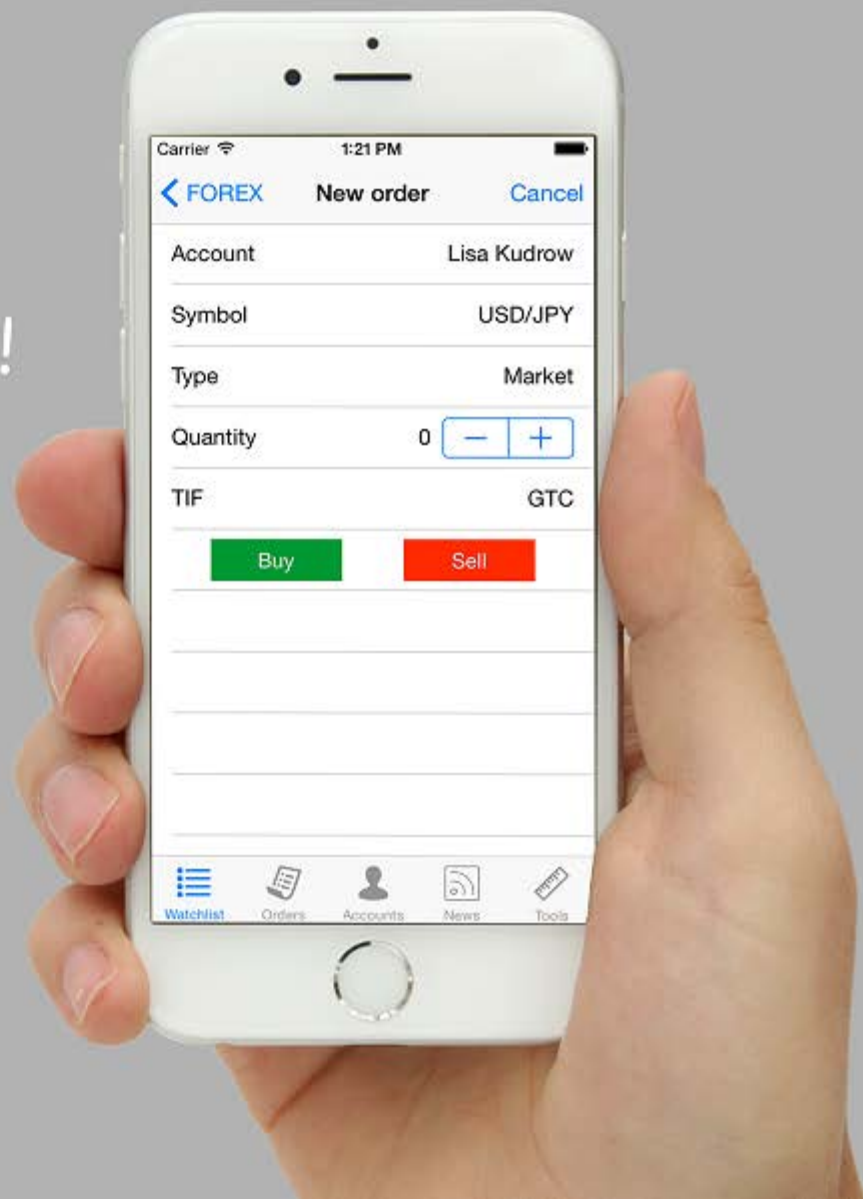

TradeScript is very easy to use and does not require programming experience.

TradeScript is also great for auto-trading, expert-advisors and more!

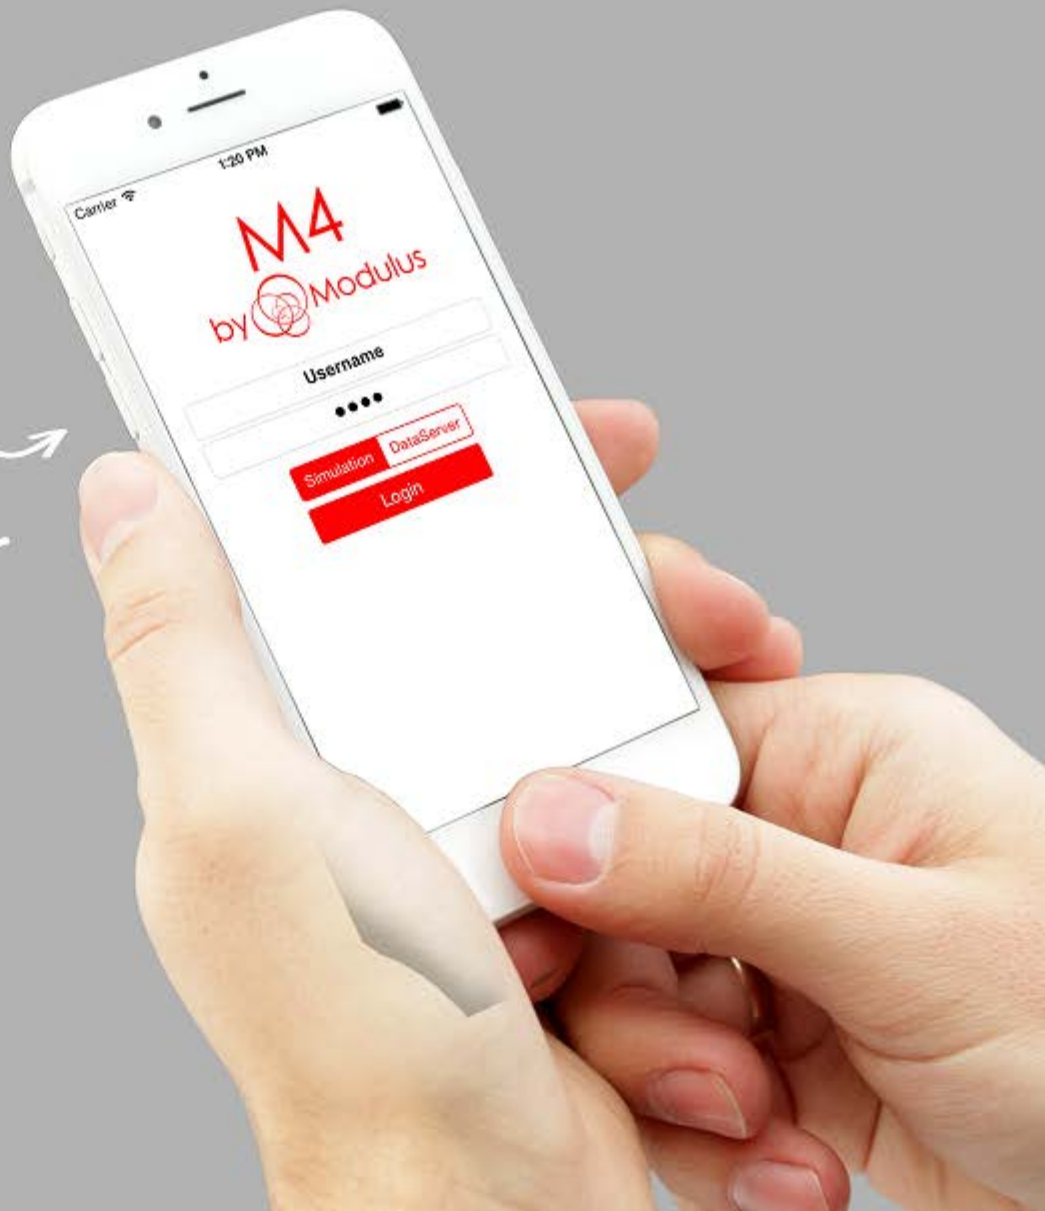

Works great for forex,  
futures equities, crypto,  
binary and much more!

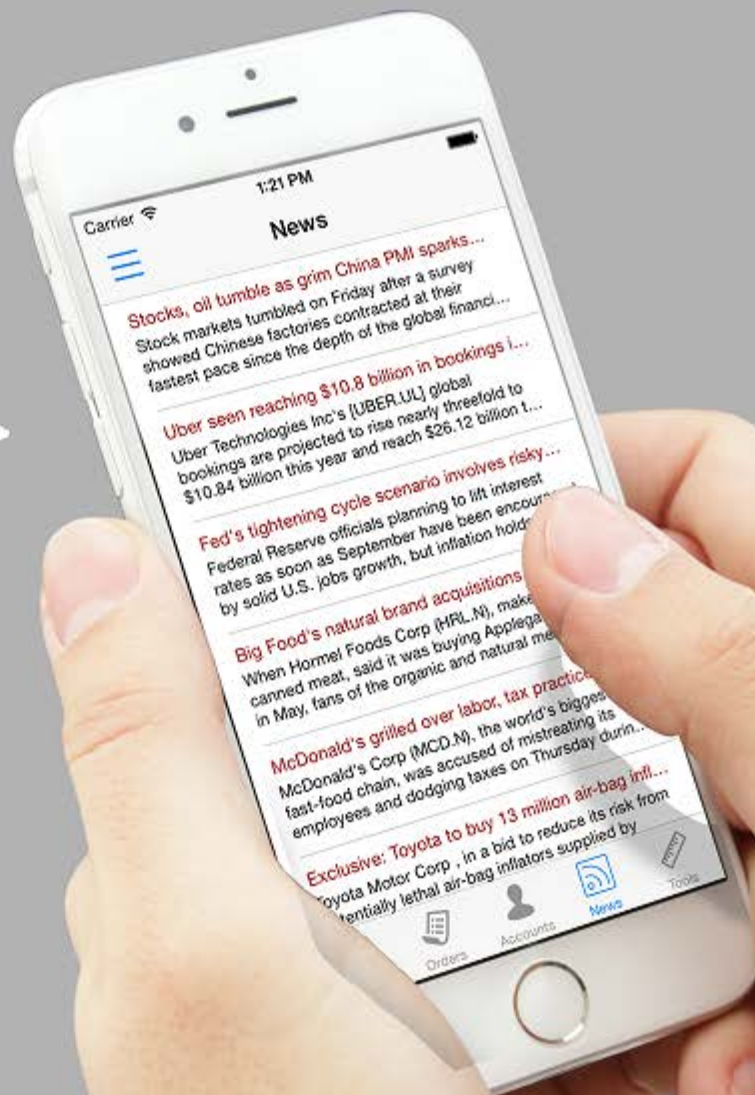

Trade through any  
broker API or use the  
optional MyExchange  
exchange engine.

Secure login and  
connection use    
powerful encryption

Built-in news  
feed with RSS   
aggregator server

Developer  
support  
provided

Easy to  
customize  
and deploy

Full theme support
